Learning Journey: Superhumans

The human body

Your body is more than what you see when you look in the mirror - there are **different parts** that have **different jobs**, but each part works together so you can eat, sleep, sit in class and play with friends.

The main parts of the body include the:

Senses

Senses allow us to observe and understand the world around us. We use:

- Our eyes to see
- Our ears to hear
- Our hands to touch
- Our mouths to taste
- Our nose to smell

KEY TERMINOLOGY

Human body-The human body is the physical structure of a person

Sense- These helps us to smell, hear, taste, and touch.

See- We use our eyes to see things.

Hear- We use our ears to hear things such as the wind blowing leaves.

Touch- We use our hands and other parts of the body to touch and feel things.

Smell- We use our nose to smell things.

Taste- We use our mouth to taste. Food may taste sweet, salty etc.
